EXPERIENCE 02

2026.03 - Offer

OBI RUSSIA

Automated security checks across CI/CD with SAST/DAST and policy gates, reducing release risks without slowing delivery.

Built threat-modeling templates and IaC guardrails, enabling teams to ship compliant infrastructure by default.

2024.09 - Present

SYNTHESIS LABS

Designed and administered the security architecture. Wrote and maintained comprehensive security tests.

2024.03 - Present

OBI RUSSIA

Resolved user incidents and root-caused recurring issues, creating runbooks that cut ticket resolution time.

Deployed endpoint hardening baselines and MFA rollout assistance, improving workstation security posture.

EDUCATION 03

2022-2026

RTU MIREA

Information Security
